

DECLARATION OF CONFORMITY

Subject: CE marking

With this document we declare that all our products are in compliance with the essential safety requirements of the 2006/95/EC Directive (also called LVD).

In compliance with such provisions of the law, we place the CE marking on the packaging (labels) of all our products and, if technically feasible, on the product itself.

The CE conformity Declaration does not follow the electrical materials because this obligation doesn't subsist.

For each product, we keep at disposal of the National Authorities, all the documentation concerning the CE marking, for inspection purposes.

For further information on the activities of Specialcavi BALDASSARI concerning "CE marking", please contact: areatecnica@specialcavibaldassari.it
